Reflective plate with four glands for radiation shield

code: FP004

Designed for the protection of up to four weather sensors with a diameter of 13 to 18 mm.
Fits up to most of probes, e.g. Vaisala, Rotronic.

Technical data

GENERAL TECHNICAL DATA	
Temperature operating range	-40 to +65 °C
Relative humidity operating range	0 to 100 %RH
Storage temperature range	-40 to +65 °C
Storage relative humidity range	0 to 100 %RH (no condensation)
Dimension	178 mm (diameter), 45 mm (height)
Weight	approx. 200 g
Material	Stainless steel
Warranty	3 years
