

Temperature probe Pt1000TG8/C, CINCH connector

code: SN104C

Multi-purpose watertight IP67 temperature probe -80 to +200°C.

The probe is designed to measure the temperature of gaseous and liquid substances. Used type of lead-in cable has silicone insulation and shielding.

The probe is designed for universal use, the method of use must be chosen with regard to the temperature and chemical resistance of the case and lead-in cable.
