

## Ambient temperature probe, 201-80/C

code: SN258

Temperature probe with Pt1000 sensor. Fast accurate air probe -30 to +80°C for direct insertion. Tolerance  $t = \pm(0.10 + 0.0017 \cdot |t|)$  in accordance with EN 60751. Response time:  $t_{63} < 10s$ ,  $t_{95} < 30s$  (air flow 1m/s). Probe is not resistant against moisture.

### Technical data
