

Wireless IoT thermometer for external probe, Sigfox

The device measures the temperature from an external Pt1000 probe on the cable - you can choose it from an optional accessory.

The measured values are sent in an adjustable time interval (10 min to 24 h) by radio transmission in the <u>Sigfox network</u> to the <u>COMET Cloud</u>, from which the user can view them using a personal computer or mobile device.

The instrument can monitor up to 2 alarm limits of the measured variable. Exceeding these limits is indicated by sending an emergency message. COMET Cloud transmits this alarm message via e-mail to the selected user. The device is suitable for applications that tolerate the delay of information delivered by Sigfox (max. 10 min).

Highlights:

- · wireless transmission of measured values and alarm states
- battery power with low battery indication (battery life 4 months to 7 years)
- · external power with optional accessories
- remote setting of the device from COMET Cloud (maximum once a day)
- IP65
- Traceable calibration certificate in accordance with EN ISO / IEC 17025

The availability of Sigfox network in a particular location

<u>Check your Sigfox network availability</u> before you buy your device. COMET devices in the Sigfox network can be used anywhere in the RC1 zone. Learn more about <u>Sigfox (RC) Radio Zones</u>.

With a newly purchased wireless sensor with Sigfox connectivity, you receive 1 year of COMET Cloud for free; an additional year of operation in COMET Cloud then requires 2 credits.

Technical data

| TEMPERATURE SENSOR - external probe Pt1000 | |
|--|--|
| Measuring range | -90 to +260 °C |
| Accuracy | ± 0.2 °C in the range -90 to ± 100 °C; ± 0.2 % from reading from ± 100 to ± 260 °C |
| Resolution | 0.1 °C |
| Response time t90 of temperature measurement (temperature step 20°C, air flow approximately 1m/s) GENERAL TECHNICAL DATA | 10 minutes |
| Operating temperature | -30 to +60 °C |
| Channels | 1x external temperature probe |

| Message transmission interval | adjustable 10 minutes, 20 minutes, 30 minutes, 1 hour, 3 hours, 6 hours, 12 hours, 24 hours |
|--------------------------------|---|
| Alarm message sending interval | 10 minutes |
| Operating frequency | 868 MHz |
| Maximum transmission power | 25mW |
| Sigfox radiation class | 0U |
| Radio configuration zone | RC1 (operation is possible in Europe, Iran, Oman and South Africa) |
| Typical range of transmitter | 50 km in the field, 3 km in the city |
| Power | Lithium battery 3.6 V, AA size |
| Protection class | IP65 |
| Dimensions | 126 x 89 x 40mm |
| Weight (including batteries) | 150g |
| Warranty | 3 years |
